

## PLANETARY COOKING

### JUPITER LIFE FAILED

Drawing was done aprox. 4.5 billion years  
after baking

## INGREDIENTS

## JUPITER

Serves 0

- \* **90% hydrogen**
- \* **10% helium**
- \* **A pinch of methane, and ammonium**
- \* **Have water on-hand**

## DIRECTIONS

1. Loosely mix all ingredients into gigantic round, oven-safe bowl
2. Place bowl in oven and bake until gooey and thick
3. Test with a spoon to be sure that the consistency is correct, there may or may not be a solid hunk at the center, it doesn't really matter

## KITCHEN NOTES

In simple steps you've just baked yourself a Jupiter

When testing with spoon the chef suggests that you leave a great red spot where you tested in order to be authentic in baking your Jupiter
